EXPERIENCE

Hacktropica 2025

2025

Content Lead

Asansol, WB

- Owned end-to-end content operations including announcements, timelines, FAQs, and onboarding guides
- Coordinated with operations and technical teams to ensure accurate real-time communication
- Managed participant queries, issue escalation, and live updates during hackathon phases
- Improved participant clarity and engagement through structured communication workflows

Smart India Hackathon (SIH)

2024

Team Lead

India

- Led BharatCulture project from ideation to final submission under SIH guidelines
- Planned milestones, delegated tasks, and managed documentation for a multi-member team
- Developed frontend UI components and integrated core user flows

Hack4Bengal Hackathon

2024

Team Lead

India

- Designed and built CareerCraft, an AI-based career guidance platform
- Implemented frontend architecture using React and TypeScript under strict timelines

PROJECTS

AuraSafe Personal Safety Web App

GitHub

React, TypeScript, Vite, Tailwind

- Built a real-time personal safety application focused on emergency response
- Implemented SOS alerts, live location sharing, and mobile-first interaction flows
- Designed reusable component architecture for scalability and maintainability

CareerCraft AI Career Guidance Platform

GitHub

React, TypeScript

- Developed an AI-powered platform for career guidance and resume feedback
- Designed structured user journeys for career discovery and recommendations

Customer Reviews Clustering NLP Project

GitHub

Python, TF-IDF, Unsupervised Learning

- Built an NLP pipeline to preprocess, vectorize, and cluster customer reviews
- Enabled automatic grouping of unstructured text for insight extraction

Aadhaar Data Analysis

GitHub

Python, Pandas, Matplotlib

- Performed large-scale exploratory data analysis on government datasets
- Identified regional trends, growth patterns, and anomalies through visualization

EDUCATION

Asansol Engineering College

2023 – 2027

B.Tech in Information Technology (CGPA: 8.04)

Asansol, WB

De Nobili School, CMRI

2008 – 2022

Schooling (CISCE)

Dhanbad, Jharkhand

SKILLS

Frontend: React, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Vite

Programming: Java, Python, C

Data & ML: Pandas, NumPy, TF-IDF, Unsupervised Learning

Concepts: Data Structures, OOP, REST APIs, Responsive Design

Tools: Git, GitHub, VS Code
